

Follow these 3 steps to add the **Wear Me** button to your Wix store. No coding knowledge needed.

1 Open your site settings (not the editor)

Log in to Wix and go to your **site dashboard**.

Important: this is NOT the drag-and-drop editor — it is the dashboard where you manage your site.

Look for **Settings** in the left side menu and click it.

Site Dashboard (not the visual editor)	
My Sites	
Analytics	
Settings	■ click Settings here

■ *Make sure you are in the Dashboard, not the Editor. The Dashboard looks more plain — it is where you manage orders, settings etc.*

2 Find Custom Code

Inside Settings, look for an option called **Custom Code**.

If you cannot see it straight away, look under an **Advanced** section.

Click **Custom Code**, then click the **+ Add Custom Code** button.

Settings	
General Info	
Payments	
Advanced	
Custom Code	■ click Custom Code
[+ Add Custom Code]	■ click this button

3 Paste your code and publish

A panel opens on the right. Paste your Wear Me code into the code box.

Give it any name — for example: **Wear Me**.

Where it says **Place Code In** — select **Body — End**.

Where it asks which pages — select **All Pages**.

Click **Apply**. Then click **Publish** at the top of the screen to make it live.

BEFORE (the code box is empty)	
Name: [empty]	■ type: Wear Me
Code: [empty box]	■ paste your code here
Place Code In: Header — Start	■ change this to Body — End
Add to Pages: Choose pages	■ change to All Pages
AFTER (filled in correctly)	
Name: Wear Me	
<script async src="https://fit-room.com...">	■ your code
Place Code In: Body — End	■ must be Body — End
Add to Pages: All Pages	■ must be All Pages
[Apply] then [Publish]	■ click both

■ *Wix changes do not go live until you publish. After clicking Apply, make sure to click Publish at the top of the screen.*
